DIVISION MEMORANDUM

No. 117 S. 2018

**TO: Public Schools District Supervisors
Elementary and Secondary School Heads**

FROM: ATTY. DONATO D. BALDERAS, JR.
Schools Division Superintendent

SUBJECT: SY 2018-2019 School Readiness Assessment

DATE: March 14, 2018

PARTICULARS

In preparation for the opening of classes this incoming SY 2018-2019, an inventory of the level of readiness for school opening is being conducted in all public schools nationwide. This initiative is being piloted in DepEd RO1 before its nationwide roll-out in other regions. For SY 2018-2019, school readiness shall be assessed based on the availability of the following six (6) variables:

- | | | |
|-------------|-----------------|-----------------------|
| 1. Teachers | 2. Classrooms | 3. Seats |
| 4. Toilets | 5. Water Supply | 6. Electricity Supply |

School Readiness is determined through assessment of data available from EBEIS and NSBI using ideal ratios for each identified readiness variable as standard parameters. The school is classified as **ready** if the ideal ratio is met, **nearly ready** if the school nearly meets the standard, and **needing support** if the school did not meet the standards past the tolerance level.

However, due to developments that may have occurred after the cut-off for updating in the EBEIS and reporting in the NSBI, it is necessary to verify the school level data obtained from the said databases.

In this regard, you are hereby required to encode your school data on the link provided on or before **March 22, 2018**.
